

Make your own glitter snowflake

YOU WILL NEED

A4 paper

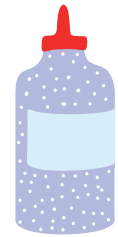

Scissors

Pencil

Paintbrush

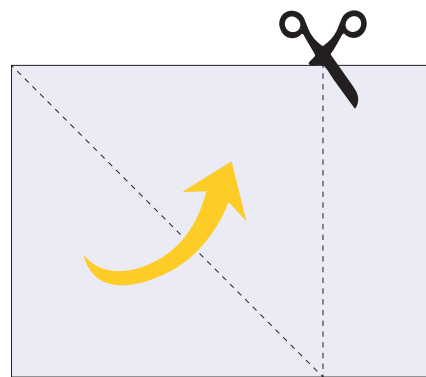

Glitter paint

Ask an adult to help with scissors

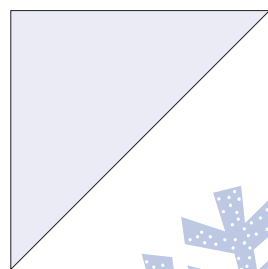

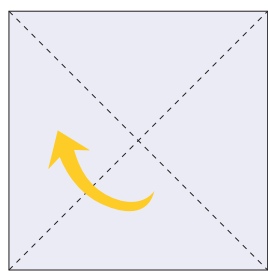

STEP 1

Fold the A4 paper from the bottom left corner up to the top right leaving a rectangular gap along the right side. Cut off this rectangle to make the paper square-shaped.

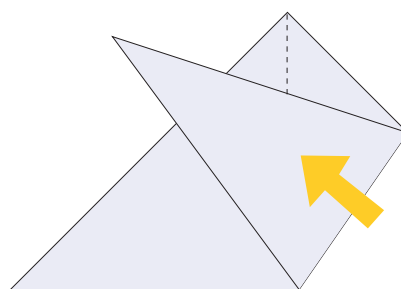

STEP 2

Unfold, then fold the paper diagonally the other way to create another triangle.

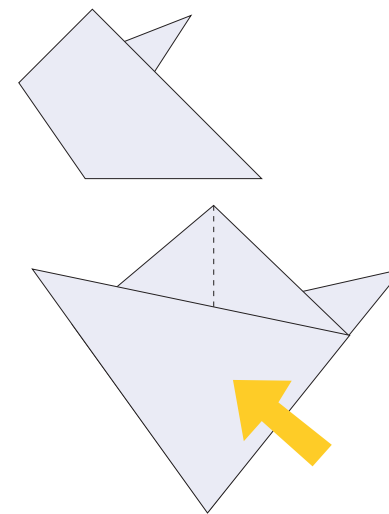

STEP 3

Fold the bottom-right corner of the triangle across to the top left to make a tiny triangle stick out over this side.

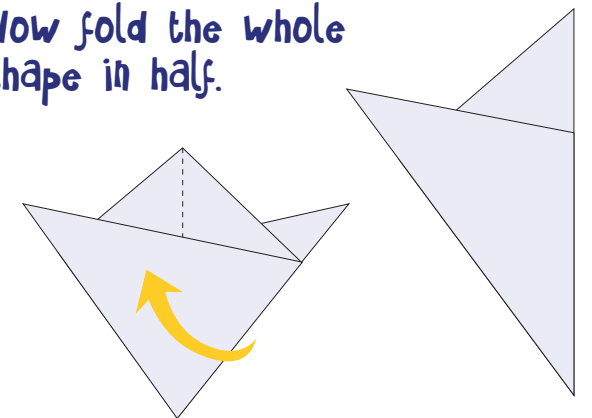

STEP 4

Turn the whole shape over. Then fold over what is now the bottom-right corner across to the top left so that the shape is now symmetrical.

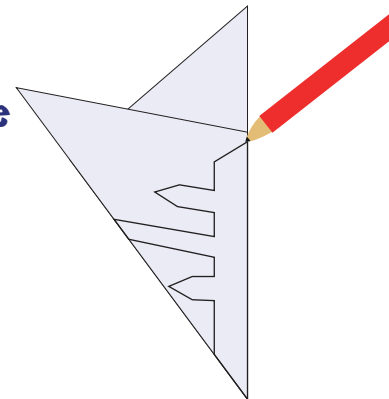

STEP 5

Now fold the whole shape in half.

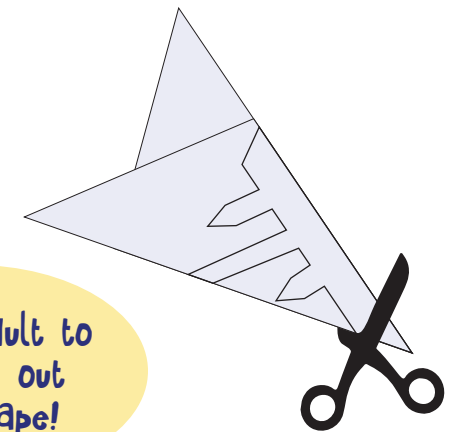

STEP 6

With a pencil, draw your snowflake shape onto the paper as shown here.

STEP 7

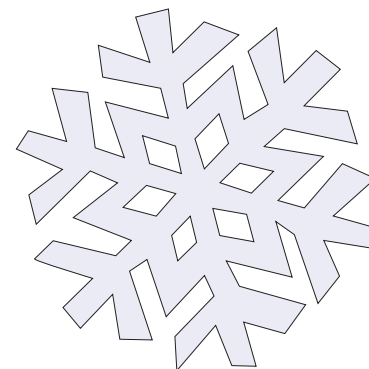

Carefully cut around the shape.

Ask an adult to help cut out your shape!

STEP 8

Unfold the paper slowly to open your snowflake shape out!

STEP 9

Use glitter paint to make your snowflake sparkle! Repeat the steps to create more snowflakes for a showy scene!
